AI THINK TANK · FREE PRINTABLE · FOR TEENS

The 3-Zone AI Homework Framework

When AI help is OK, when it's gray, and when it crosses the line.

GREEN ZONE
AI as Tutor

SAFE. NO DISCLOSURE NEEDED.

- Ask AI to explain a concept you don't understand
- Generate practice problems to test yourself
- Check your work after you've tried it yourself
- Brainstorm your own ideas before you write
- Learn a topic deeper than the textbook goes

YELLOW ZONE
AI as Assistant

CAREFUL. ATTACH A DISCLOSURE.

- Outline the structure for an essay you'll write
- Fix grammar or clarity in your own writing
- Suggest stylistic improvements to your draft
- Translate your writing between languages
- Research background facts (verify them yourself)

RED ZONE
AI as Author

THIS CROSSES THE LINE.

- Having AI write the whole essay or answer
- Copying AI output directly into your submission
- Submitting work you couldn't explain verbally
- Asking AI to do the thinking that's your job
- Using AI when your teacher said no

Use this on your OWN assignment

Scan the code or go to the tool. Describe your actual homework and get a personal green/yellow/red verdict + a disclosure note you can attach to your submission.
